

FILTRATION & SEPARATION

AZUMI FILTER PAPER Co., Ltd.

Filter Press Filtration machine *Small duplex filter press using filter paper

Filter Press

Filter paper is inserted between the filter plates placed in series, and the filter plates are tightly sealed with a oil pressure cylinder

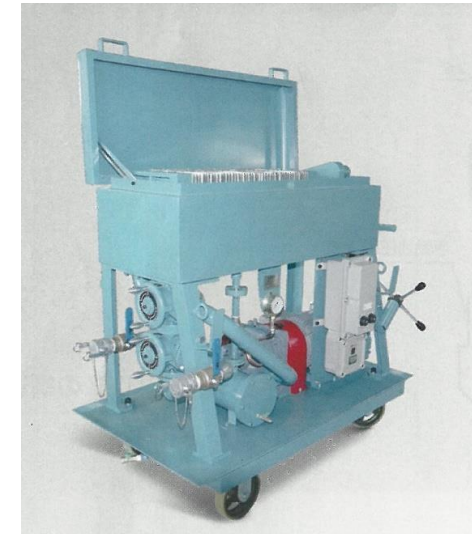

Features of Filter press

- Simple structure and low failure rate
- Ensure the large filtration area for the installation area
- Cake emissions can be simple

FILTRATION & SEPARATION

AF58 type Filter Press

Pattern number	Filtration area	Cake chamber volume	Filter Paper Dim	Number of filter paper
AF306-16	1.09	16	□340×320 2つ穴	16
AF306-24	1.63	24		24
AF306-32	2.18	32		32
AF460-10	1.68	25	□480×500 4つ穴	10
AF460-36	6.04	90		36
AF460-40	6.72	100		40
AF460L-10	1.68	35		10
AF460L-36	6.04	133		36
AF460L-40	6.72	148		40

Basic spec

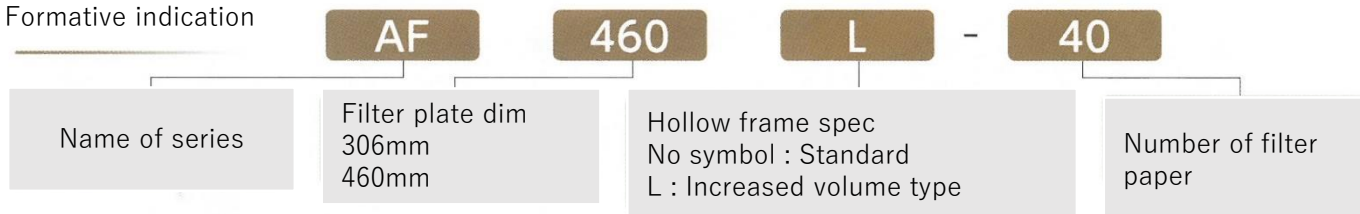

Size : 178mm angle
306mm angle

Filter plate material
Cast aluminum steel

Filter plate tightening
method : Push screw

Pump spec : 0.2kW~5.5kW
3phases200V

Formative indication

We mainly deal in small size filtration equipment using filter paper. We provide that meets the customer's purpose by manufacturing to order without being limited to the basic spec that we described.

In addition to our own equipment, we can also provide large models and automatic type models from filtration equipment manufactures.
